

## CONTINUOUS MASSECUITE REHEATER

### KEY BENEFITS

- Floor mounted
- Simple construction
- High heating surface to volume ratio
- Close contact between massecuite and heating surfaces
- No “dead spots” therefore, no “channeling”
- Close massecuite to water approach temperature
- Unique heating element system
- Suitable for cane, beet and refinery massecuites
- Heating Surface - 180 m<sup>2</sup> to 600 m<sup>2</sup>
